

THE EMORY CLINIC NEURORADIOLOGY PHYSICIANS

The Division of Neuroradiology is part of the Emory University Department of Radiology. The physicians in this division specialize in neuroradiology and dedicate 100 percent of their efforts to the practice of neuroradiology. Within the section, there is further subspecialization, with physicians dedicated to Pediatric, Head & Neck/Ear, Nose, & Throat, and Brain and Spine imaging. All physicians work closely with clinical specialists to decide on the appropriate imaging test and review the relevant findings on advanced MR and CT techniques.

Denis S. Atkinson, MD

Assistant Professor of Radiology/
Neuroradiology; Director of Neuroradiology,
CHOA Egleston Campus
Emory University School of Medicine
Certified by: American Board of Radiology
Special Interests: Pediatric neuroradiology, MR

spectroscopy, fMRI, MR Perfusion, diffusion tensor imaging with tractography, neuro-oncology, epilepsy imaging, vascular imaging, medical informatics, PACS

C. Michael Cawley, MD

Assistant Professor of Neurosurgery and
Radiology
Emory University School of Medicine
Certified by: American Board of
Neurological Surgery

Special Interests: Treatment of cerebrovascular diseases by surgical and interventional means

Amanda Corey, MD

Assistant Professor of
Radiology/Neuroradiology
Emory University School of Medicine
Certified by: American Board of Radiology
Special Interests: ENT imaging, brain tumors

Jacques Dion, MD, FRCPC

Professor of Radiology/Interventional
Neuroradiology and Neurosurgery;
Director, Interventional Neuroradiology;
Director, Interventional Neuroradiology
Fellowship Program
Emory University School of Medicine

Certified by: American Board of Radiology; Canadian Board of Radiology; Quebec Board of Radiology
Certificate of Added Qualifications: Neuroradiology
Special Interests: Endovascular therapy of cerebral aneurysms and arteriovenous malformations, stroke, carotid stenosis, head and neck vascular and tumoral abnormalities, sclerotherapy of venous and lymphatic malformations, vertebroplasty for vertebral compression fractures

A.J. Fountain, Jr., MD

Assistant Professor of
Radiology/Neuroradiology;
Director of Neuroradiology
Emory University School of Medicine
Certified by: American Board of Psychiatry
and Neurology; American Board of Clinical

Neurophysiology; American Board of Radiology
Certificate of Added Qualifications: Neuroradiology
Special Interests: Neurodegenerative and metabolic disorders, imaging of the spine and cord, imaging for seizure investigation; procedures of interest include skull base, neck and spine biopsies

call 404-778-XRAY (9729).*

Advancing the Possibilities™

THE EMORY CLINIC NEURORADIOLOGY PHYSICIANS

James C. Hoffman, Jr., MD

Associate Professor of Radiology
Emory University School of Medicine
Certified by: American Board of Radiology
Certificate of Added Qualifications:
Neuroradiology
Special Interests: Brain and spine imaging

Chad Holder, MD

Assistant Professor of
Radiology/Neuroradiology; Director of Neuro
MRI; Medical Director, Emory-Georgia Tech
Biomedical Imaging Technology Center
Emory University School of Medicine
Certified by: American Board of Radiology

Certificate of Added Qualifications: Neuroradiology
Special Interests: Imaging of CNS neoplasms, epilepsy, movement
disorders, stroke, spine, MR spectroscopy, fMRI

Patricia A. Hudgins, MD

Professor of Radiology/Neuroradiology;
Director, Neuroradiology Fellowship Program
Emory University School of Medicine
Certified by: American Board of Radiology
Certificate of Added Qualifications:
Neuroradiology

Special Interests: Larynx, sinus, temporal bone, head and neck
cancer, hearing loss, tinnitus

Arun Krishnan, MD

Assistant Professor of Radiology/
Neuroradiology
Emory University School of Medicine
Certified by: American Board of Radiology
Certificate of Added Qualifications:
Neuroradiology

Special Interests: HIV neuroradiological imaging, fMRI

Carolyn Cidis Meltzer, MD

William P. Timmie Professor of Radiology
and Neurology; Chief Academic Officer,
Department of Radiology; Director,
Neuroscience Imaging Research Center;
Associate Dean of Research
Emory University School of Medicine

Certified by: American Board of Radiology; American Board
of Nuclear Medicine

Certificate of Added Qualifications: Neuroradiology
Special Interests: Positron emission tomography, serotonin
receptor imaging, Alzheimer's disease, partial volume
correction, late-life depression

Mark E. Mullins, MD, PhD

Assistant Professor of Radiology; Director
of Medical Student Radiology Education;
Associate Director of Radiology Residency
Training Program; Director of Stroke
Imaging, Radiology
Emory University School of Medicine

Certified by: American Board of Radiology
Certificate of Added Qualifications: Neuroradiology
Special Interests: Education, stroke imaging, brain tumor
imaging, CT angiography

Frank Tong, MD

Assistant Professor of Radiology/Interventional
Neuroradiology and Neurosurgery
Emory University School of Medicine
Certified by: American Board of Radiology
Certificate of Added Qualifications: Diagnostic
Neuroradiology

Special Interests: Neurovascular imaging, aneurysm therapy,
vascular stenting, intracranial embolization

David G. Westman, MD, FRCP(C)

Assistant Professor of Radiology/Neuroradiology
Emory University School of Medicine
Certified by: American Board of Radiology; Royal
College of Physicians and Surgeons of Canada
Certificate of Added Qualifications: Neuroradiology
Special Interests: Vascular imaging, spine imaging,

pediatric neuroradiology
