**Providers Not Covered by the Financial Assistance Policy**  
**Updated February 01, 2025**

According to federal regulations and IRS guidelines governing financial assistance for emergency and medically necessary care delivered in the hospital facility, a hospital facility is required to provide a list of providers who are covered by the hospital facility’s Financial Assistance Policy (FAP) and those who are not covered by the hospital facility’s FAP. (See 26 CFR 1.501(r)-4(b)(1)(iii)(F) and IRS Notice 2015-46)

Emory Healthcare’s FAP is available at <https://www.emoryhealthcare.org/patients-visitors/insurance-billing/financial-assistance> and outlines services that are not covered by the FAP for any providers.
