

ECMO Program at a Glance

ECMO patient volume

Highest volume ECMO program in the U.S.

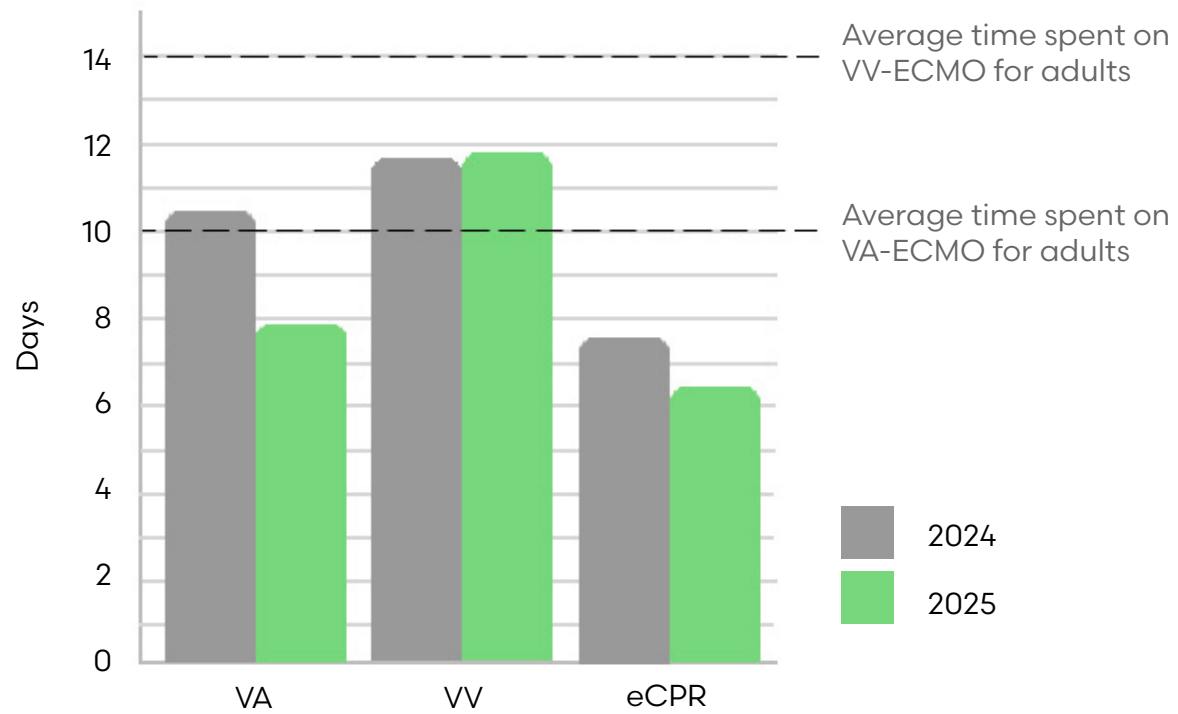

Emory treats significantly more ECMO patients than the average ECMO center nationwide, reflecting the program's scale, experience and ability to manage highly complex cases.

Average time spent on ECMO

Efficient care without compromising outcomes

Time on ECMO varies based on patient condition and clinical need. Emory's ECMO teams focus on transitioning patients off support as quickly as care will safely allow.

Adult ECMO survival outcomes

Strong survival rates across ECMO modalities

Emory consistently achieves strong adult survival outcomes across ECMO modalities, meeting or exceeding national benchmarks for VA-ECMO and VV-ECMO.
