

Transforming Your Life in Just Two Weeks.

*Personalized, Confidential, Effective
Care for Post-9/11 Veterans at No Cost.*

Are you struggling with your mental health? Do you think you might have PTSD, depression, or anxiety? Have other treatments not worked for you?

The Emory Healthcare Veterans Program (EHVP) provides **confidential, individualized, evidence-based mental health care—at no cost to you.** Our goal is to help you heal, reconnect with what matters, and live the life you choose.

Who is Eligible?

If you served at least one day after 9/11, you may be eligible—regardless of discharge status, VA-eligibility, deployment history, or length of service.

No diagnosis or referral is required.
You will never receive a bill.

Effective Care. No Cost.

- 93% graduate our program
- 96% satisfied with care
- Thousands of lives **transformed**

We cover **treatment, transportation, lodging, meals, and activities**—so cost won't stand in the way of getting help.

What Do We Treat?

- PTSD
- Mild TBI
- MST (Military Sexual Trauma)
- Anxiety
- Depression

What Can You Expect?

Our two-week program provides personalized care that includes:

- One-on-one, evidence-based psychotherapy with an individual therapist and treatment team
- A Real-World Practice Group that teaches skills for everyday life
- Enhanced case management to connect you with community resources and additional care
- Support from fellow veterans, building relationships with people like you in a cohort

Why EHVP?

No time? Our accelerated treatment provides significant and lasting improvements in **just two weeks**, with telehealth options available.

Bounced around between providers? You'll work with an **individual therapist and dedicated treatment team** who care about you.

Worried it won't work? More than a decade of outcomes data demonstrates **significant improvement** in invisible wounds.

Want access to the future of mental health care? Eligible veterans may volunteer for **clinical research, evaluating promising new treatments**, including psychedelic-assisted therapies currently available only through research.

Treatment works. Call today.
