Where Dementia is Primary

The Integrated Memory Care Team

The IMC care team consists of a variety of disciplines, like nurse practitioners, collaborating physicians, registered nurses, social workers, medical assistants, dementia care assistants, and patient care coordinators.

Elisabeth Barre, Nurse Manager – Elisabeth is a registered nurse who triages clinical concerns and assists families with coordinating the patient's healthcare needs.

Cotenna Clark, Nurse Practitioner-- Cotenna is a Family Nurse Practitioner with experience in the primary care of older adults. She is the Nurse Practitioner for the IMC Community Program and supports the IMC Clinic

Jenny Gay, Clinical Social Worker – Jenny is a licensed clinical social worker who communicates with patients and caregivers to assess needs, coordinate care, and plan for future needs.

Amy Imes, Nurse Practitioner– Amy is a gerontological nurse practitioner and has practiced in various practice settings. She has cared for dementia patients and associated symptoms for many years and is currently seeing patients in the community program and in the clinic.

Ambar Kulshreshtha, Collaborating Physician—Dr. Kulshreshtha is a Family Medicine Medical Doctor. He does not see patients within the IMC, but he consults with the nurse practitioners for the Community Program.

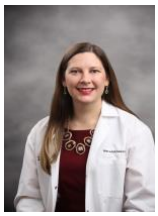

Laura Medders, Program Director – Laura is the IMC Program Director who communicates with patients and caregivers to assess needs, coordinate care, and plan for future needs.
