

EMORY HEALTHCARE

Medical Laboratories

- Arm draws only
- Blood collection ends 15 minutes prior to listed closing time

Emory Medical Laboratories

To offer the most convenient service to our patients, Emory Medical Laboratories offers many locations throughout the Emory Healthcare system where patients can visit for blood collection services and specimen management. As one of the largest, most comprehensive medical laboratories in Georgia, Emory Medical Laboratories is a fully accredited and licensed clinical laboratory providing high-quality, cost-effective, innovative laboratory services. No appointments necessary. Emory patients who have visited Emory providers should have electronic lab orders conveniently available in our computer system so, in most cases, no paperwork is required allowing for shorter wait times.

Test Results – Emory Patient Portal

Emory's Patient Portals make it easy to manage your health. You can check portions of your medical record, view lab results, view appointments, send messages to your provider teams and renew your prescriptions. For questions on how to sign up, visit emoryhealthcare.org/patient-portal.

Health care providers will be able to answer any questions regarding laboratory testing and results. Please contact your provider(s) with questions.

Please note: locations offer arm draws only for blood collections and can only collect lab work ordered by Emory doctors. Blood collection ends 15 minutes prior to listed closing time.

Please reference the inside of this document for a list of locations and map for a convenient location to visit.
