

20% off all CoolSculpting® Treatments*

Get cool this winter just in time to be hot for the summer. Believe it or not, warm weather will soon be upon us, and we will be reaching for our shorts and swimsuits. Let us help you get summer ready.

CoolSculpting is a revolutionary new treatment that uses Cryolipolysis, or freezing temperatures, to destroy fat cells without surgery. With our unique applicators that shorten treatment and recovery time, patients are back to work and resume normal activities the same day. Over the next several weeks, as the damaged fat cells are safely metabolized by the body, the target area will have a more defined and sculpted appearance.
