Research Focus:

My primary areas of academic inquiry have been in the development of new medical devices for endoscopic procedures, wound closure, and wound treatment, system

and process improvement in plastic surgery, evidence based medicine applied to plastic surgery, and reconstructive surgery of the massive weight loss patient.

Patents:

a. Issued

1. US Patent # 6,143,008 Apparatus for endoscopic harvesting of elongate tissue structures. (November 7, 2000). (Plus international)
2. US Patent #6,080,161. Fastener and method for bone fixation. (June 27, 2000).
3. US Patent # 6,041,185. System and method for anchoring a cord-like element to a workpiece. (March 28, 2000).
4. US Patent # 5,899,912. Apparatus and method for endoscopic harvesting of elongate tissue structure (May 4, 1999). (Plus international)
5. US Patent #5,935,134. Apparatus and method for anchoring a cord-like element to a workpiece (March 23, 1999).
6. US Patent #5,667,480. Method and devices for endoscopic vessel harvesting. (September 16, 1997). (Plus international) *

** This patent was developed (along with Dr. Alan Lumsden) during my time at Emory. According to Dr. Todd Sherer, Head of the Emory Office of Technology Transfer, this patent has to date provided \$1,363,979 to Emory (\$454,660 to the General University, \$227,330 to the School of Medicine, \$605,761 to the Department of Surgery, and \$76,228 in lab support funds). The device has been used on thousands of patients to reduce the morbidity of saphenous vein harvest for cardiac and peripheral vascular surgery.*

5. Force Modulating Tissue Bridges, Associated Applicators, Kits, and Methods

Provisional Application 21 October 2016
Non-provisional (utility) application 20 October 2017
(PCT/US/17/57569)

NOTE: Currently with international non-utility and divisional applications, 29 patents are undergoing active prosecution

Grant Support:

Private Foundation Funding:

Investigator status: Principle organizer
Source: Aesthetic Surgery Education and Research Foundations, Ethicon Endo-Surgery, Inc.
Title: Multi-specialty summit exploring the evolutionary biological, social, anthropological, and psychological basis of aesthetic evaluation in humans.
Amount: \$55,000 (one time)
Years: January-February, 2009

Investigator status: Co-Principle Investigator
Source: Aesthetic Surgery Education and Research Foundation
Title: Support Grant for Graduate Education Funding and Study Travel.
(Results published in: Adams ES, Sobek DK, and Eaves F. A Cross-case comparison of hypothermia prevention methods and continuous improvement culture between aesthetic plastic surgery sites. *Aesthetic Surg J* 2011 January; 31(1); 122-.134.)
Amount: \$81,901.18.
Years: 2008-2011

Investigator status: Principal Investigator

Source: Georgia Research Alliance, GRA.VL14.C3 (1A)
Title: EMRGE (Grant to fund development of Force Modulating Tissue Bridges, Variable Release Backings, and BiDirectional Linear Fixator technologies, with milestones of polymer and adhesive materials assessments and selection, prototyping, mechanical testing, FDA regulatory assessment, and Human Factor analysis).
Amount: \$63,505
Award September, 2013

Investigator status: Co-Investigator
Emory Innovative Teaching Grant
Title: Aesthetic Surgery Training Lab
Amount: \$2600
Award October, 2013

Investigator Status: Principal Investigator
Source: Georgia Research Alliance, GRA V114.C3 (1B)
Title: EMRGE
Amount: \$93,797.87
Award June, 2014

Investigator status: Co-Developer/Co-Founder
Source: Coulter Foundation
Title: Visage
Amount: \$50,000
Award: December 10, 2014

Investigator Status: Co-Principal Investigator
Source: Georgia Research Alliance, Phase 1A
Title: Visage
Amount: \$ 70,000
Awarded March, 2015

Investigator Status: Principal Investigator
Source: Georgia Research Alliance, Phase IIA
Title: EMRGE
Amount: \$100,000
Award: January, 2016

Investigator Status: Principal Investigator
Source: Georgia Research Alliance, Phase IIB
Title: EMRGE
Amount: \$50,000
Award: March 31, 2017

Investigator Status: Principal Investigator
Source: Coulter Foundation
Title: EMRGE
Amount: \$50,000 (seed grant)
Award: April 21, 2017

Investigator Status: Principal Investigator
 Source: Georgia Research Alliance, Phase III
 Title: EMRGE
 Amount: \$250,000
 Award: January 21, 2018

Other:

Investigator status: Instrument designer
 Source: Medical device royalties from the development of endoscopic surgical equipment
 Title: None
 Years: 1993-1994
 Amount: Fund amount totals unavailable. Provided grant funds for the plastic surgery resident library based on instruments designed for Snowden-Pencer, Inc.

Kauffman Foundation FastTrac TechVenture Program (for Entrepreneurial Development), April – June, 2013

Clinical Service Contributions

1. 1993-1997 - Emory University School of Medicine and The Emory Clinic: While previously at Emory as a resident, fellow, and assistant professor, developed new instrumentation for endoscopic plastic surgery applications, and developed new techniques for endoscopic vein harvest, muscle flap (latissimus dorsi) harvest, facial aesthetic surgery, breast surgery, and abdominal wall procedures. To the best of my knowledge, I performed the first ever saphenous vein harvest (with Dr. Alan Lumsden) and latissimus dorsi harvest (in conjunction with Dr. William Wood for breast reconstruction).
2. 1995-1997 - Provided aesthetic and breast reconstruction services to patients at the Emory Clinic and Emory University Hospital.
3. 1997 - Present - Provided full time care to patients in Charlotte, NC. Services provided have included trauma reconstruction, wound care, breast reconstruction (autologous and implant based), aesthetic surgery, and reconstruction of the massive weight loss patient.
4. 2001-2006 - Developed new techniques for flap restoration of buttock contour after massive weight loss.
5. 2008 - Present - Developed the CircumRotational technique for mastopexy and breast reduction.

Formal and Supervisory Teaching:

a. Medical Student Teaching

1. University of Texas Southwestern - (as Resident) Medical Student Instructor, 1989-1990 and 1991-1992. Provided formal lectures, procedural demonstration, and one-on-one instruction to third and fourth year medical students.

2. Twice received the Resident Teaching Award (voted by medical students)
 - Resident Teaching Award 1989-1990, Department of Surgery, Parkland Hospital/UT Southwestern
 - Resident Teaching Award 1991-1992, Department of Surgery, Parkland Hospital/UT Southwestern
 3. Emory University, 1992 - 1997- responsible for teaching rotating medical students, plastic surgery service
 4. Charlotte Plastic Surgery - periodic medical school rotators, University of North Carolina, Chapel Hill (not on main campus) (1997 - 2005, intermittent)
 5. Emory University School of Medicine (2012 – present). Direct one-on-one instruction, resident and medical school lectures, operating room supervision
- b. Graduate Program:
1. Emory (1995-1997)
 - Instructed residents at Emory University Hospital and TEC
 - Anatomy lab instructional sessions
 2. Charlotte Plastic Surgery
 - Instruct/supervise rotating plastic surgery residents (UNC Chapel Hill Program), 1997 - 2008
 - Instruct/supervise Charlotte Plastic Surgery Breast and Aesthetic Surgery Fellows, 1997 - 2005
 3. American Society for Aesthetic Plastic Surgery, Traveling Professor, 2003-2005 and 2007-2009. As traveling professor, one primary responsibility is direct resident instruction
- c. Other categories:
1. Course instructor: General Surgery for Physicians Assistants (quarterly course, 8 sessions, 1985-1987)
 2. Georgia Tech-Emory Transforming Innovation: Generating Economic Results (TI:GER) Program Faculty Instructor/Team Leader - (Teams include Emory Senior Law, GT PhD Engineering, and GT MBA students)
 - a. Fall Semester, 2013 (EMRGE, LLC)
 - b. Spring Semester, 2014 (EMRGE, LLC)
 - c. Spring Semester, 2015 (Visage)

Lectureships, Seminar Invitations, and Visiting Professorships

a. Visiting Professorships

1. Berkley Professor, Charlotte Plastic Surgery, October 30-31, 1995.
2. Visiting Professor 1996 HDMP Expert in Endoscopic Surgery, Ministry of Health, Singapore, August 1996.

3. Visiting Professor, Cairo University and Egyptian Society of Plastic Surgeons. March 7-12, 1997.
4. SUNY Health Science Center at Brooklyn, Visiting Professor, May 2, 1997.
5. Visiting Professor, Royal Australasian College of Surgeons, Sydney, Australia Auckland, New Zealand. May, 1999.
6. Visiting Lecturer, Advanced Course in Plastic Surgery. Birmingham, England. June 21-22, 1999.
7. Ohio State University, ASAPS Visiting Professor. March 18-29, 2004.
8. California Society of Plastic Surgeon, ASAPS Visiting Professor. San Diego, May 28-29, 2004.
9. University of Texas Southwestern at Dallas, Visiting Professor, March 31, 2005.
10. Georgetown University Department of Plastic Surgery, ASAPS Visiting Professor, March 17, 2005.
11. University of Cincinnati, ASAPS Visiting Professor, May 24-25, 2005.
12. University of Toronto Annual Aesthetic Meeting, ASAPS Visiting Professor, Toronto, Ontario, May 4-5, 2007.
13. University of California, Davis and the Sacramento Society of Plastic Surgery Sacramento, CA. ASAPS Visiting Professor, September 22-23, 2008.
14. University of Miami and the Miami Plastic Surgery Society, ASAPS Visiting Professor, January 21-22, 2009.
15. New England Society of Plastic and Reconstructive Surgeons, ASAPS Visiting Professor, June 5-6, 2009.
16. Vanderbilt University. ASAPS Visiting Professor – October 8-9, 2009.
17. John Hopkins University and the John Stages Davis Society, ASAPS Visiting Professor, February 24-25, 2010.
18. Bernard G. Sarnat, MD Lectureship. Advances in Multi-Specialty Aesthetic and Reconstructive Plastic Surgery Symposium. Cedars- Sinai Medical Center, Beverly Hills, California. November 4-5, 2011.
19. University of British Columbia/A.D. Courtemanche Visiting Professor. Vancouver, British Columbia. April 19-20, 2012.
20. University of Pittsburg Visiting Professor. July 30-31, 2013.

21. 2014 Thuss Lecturer and Visiting Professor, Vanderbilt University. April 11-12, 2014.
