The IMCC care team consists of nurse practitioners, collaborating physicians, a registered nurse, social worker, and a patient care coordinator.

The team will develop an individualized plan of care with treatment recommendations. Patient education, potential and actual barriers to treatment goals, caregiver and family support, and community resources may be discussed while developing the care plan.

**Meet the Integrated Memory Care Clinic Team**

**Carolyn Clevenger**  
Clinical Director and Nurse Practitioner  
As a nurse practitioner, Carolyn specializes in geriatrics and gerontology and Alzheimer’s disease and related disorders. She will see patients for primary care in the IMCC.

**Debbie Gunter**  
Nurse Practitioner  
Debbie is nurse practitioner whose specialty is palliative care. She will be providing primary care to patients at the IMCC.

**Ihab Hajjar, MD**  
Collaborating Physician  
Dr. Hajjar is board certified in geriatric medicine and internal medicine. His clinical areas of interest are Alzheimer’s disease and dementia assessment. He does not see patients within the IMCC, but he consults with the nurse practitioners.

**Teerea Kimbro**  
Patient Care Coordinator  
Teerea is a patient care coordinator who will assist with scheduling appointments and coordinating care between patients, their families and the staff of the IMCC.

Meet the Integrated Memory Care Clinic Team

Allan Levey, MD
Collaborating Physician
Dr. Levey is chairman of the Department of Neurology at Emory University and the Director of the Emory Alzheimer’s Disease Research Center. He does not see patients within the IMCC, but he consults with the nurse practitioners.

Laura Medders
Social Worker and Administrative Manager
Laura is a clinical social worker who will assist families with finding solutions to care needs. She will communicate with patients and caregivers to assess needs, coordinate care, and plan for future needs.

Alison Schlenger
Nurse Practitioner
Alison is a nurse practitioner who specializes in geriatrics with experience in Alzheimer’s disease and dementia, primary care of older adults, and community based palliative care. She will be providing primary care to patients at the IMCC.

Heidi Wells
Registered Nurse
Heidi is a registered nurse who will assist with triaging patients, and assisting families with coordinating the patient’s healthcare needs. Heidi can be reached at 404-712-3241.
