About the Exchange

The healthcare law known as the Affordable Care Act states that, as of January 1, 2018, everyone must have health care insurance. This law was passed to help more people get affordable health care. The Health Insurance Marketplace (commonly called “the exchange”) simplifies your search for health coverage by gathering the options available in your area in one place. You can compare plans offered by private companies based on price, benefits and other features important to you before you make a choice. Go to <http://www.healthcare.gov> for more information.
